INDEPENDENT AUDITOR'S REPORT

The Board of Trustees
Retirement Plan for Chicago Transit Authority Employees

Report on the Financial Statements

We have audited the accompanying financial statements of the Retirement Plan for Chicago Transit Authority Employees (the Plan), which comprise the statements of fiduciary net position as of December 31, 2020 and 2019, the related statements of changes in fiduciary net position for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

The Plan's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Plan as of December 31, 2020 and 2019, and the changes in its financial position for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audits were conducted for the purpose of forming an opinion on the basic financial statements as a whole. The accompanying schedule of investment and administrative expenses is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audits of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)

Management's Discussion and Analysis of the Retirement Plan for Chicago Transit Authority Employees (the Plan) provides an overview and analysis of the financial statements of the Plan, including highlights and comparisons for the years ended December 31, 2020 and 2019. For more detailed information regarding the Plan's financial activities, review the Plan's financial statements, including the notes and supplementary schedules.

Overview of the Financial Statements

The financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP), as established by the Governmental Accounting Standards Board (GASB), and are described below:

- *The Statements of Fiduciary Net Position* present the Plan's assets and liabilities and the resultant net position held in trust for Plan benefits at the end of the year. The statements reflect the Plan's investments at fair value as well as receivables and liabilities.
- *The Statements of Changes in Fiduciary Net Position* present the additions and deductions to the Plan during the current year. It reflects the investment income and net realized and unrealized gains or losses during the year, along with members' contributions and employer's contributions; and then benefit payments, refunds, and administrative expenses.
- *The Notes to Financial Statements* provide additional information for a better understanding of the data provided in the financial statements. They explain the purpose of the Plan, significant accounting policies, investment details and related risks, and other relevant information.

The required supplementary information consists of a schedule of changes in the employer's net pension liability and related ratios, a schedule of employer contributions and a schedule of investment returns, as well as the related notes to required supplementary information to discuss actuarial assumptions and methods. Such schedules provide information to aid in the analysis of the Plan's funded status and the internal rate of return on pension plan investments.

- *The Schedule of Changes in the Employer's Net Pension Liability and Related Ratios* shows the liability of the employer to Plan members and retirees for benefits provided through the pension plan and the changes thereof during the year.
- *The Schedule of Employer Contributions* contains historical trend information of employer contributions. It shows the amounts of required employer contributions and the related amounts the employer has contributed to meet its requirement.
- *The Schedule of Investment Returns* shows the period-by-period returns on pension plan investments that adjust for the changing amounts actually invested. It represents an internal rate of return on pension plan investments, net of pension plan investment expenses.
- *The Notes to the Required Supplementary Information* describe the actuarial method and assumptions used to aid in the understanding of the required supplementary schedules.

The additional schedule provided is the *Schedule of Investment and Administrative Expenses*, which reflects the costs to manage the defined benefit pension plan.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)

Financial Highlights

- The fiduciary net position held in trust for Plan benefits totaled approximately \$1.94 billion at December 31, 2020, compared to \$1.89 billion at December 31, 2019 and \$1.71 billion at December 31, 2018. The fiduciary net position is available for payment of members' pensions.
- For the 2020 Plan year, the addition to fiduciary net position was \$347.4 million, which consisted of contribution revenue of \$223.8 million, increased by a net investment gain of \$123.6 million. The addition to fiduciary net position for the 2019 Plan year was \$466.1million, which consisted of contribution revenue of \$202.9 million, increased by a net investment gain of \$263.2 million.
- Benefit payments to retirees increased by \$8.2 million in 2020, \$6.5 million in 2019, and \$5.4 million in 2018. Refunds of member contributions decreased by \$1.9 million in 2020, decreased by \$0.3 million in 2019, and increased by \$0.1 million in 2018.
- The funded ratio of the Plan for pension benefits was 53.27% at December 31, 2020, 52.55% at December 31, 2019, compared to 52.62% at December 31, 2018. The slight increase in the funded ratio at December 31, 2020 compared to December 31, 2019, was mainly due to a market value return of 7.6% compared to an 8.25% assumed rate of return, demographic experience, updated participant data, and greater-than-expected payroll and salary increases. The decrease in the funded ratio at December 31, 2019 compared to December 31, 2018, mainly was due to a market value return of 15.70% compared to an 8.25% assumed rate of return, demographic experience, updated participant data, and greater-than-expected payroll and salary increases.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)

Fiduciary Net Position

A condensed schedule of the Plan's fiduciary net position is presented below:

Fiduciary Net Position

(in millions)

As of December 31, 2020, 2019 and 2018

	<u>2020</u>	<u>2019</u>	<u>2018</u>	<u>2020-2019</u> <u>Change</u>	
				<u>\$</u>	<u>%</u>
Receivables	\$ 25.1	\$ 23.8	\$ 18.6	\$ 1.3	5.5%
Brokers–unsettled trades	3.5	136.2	13.3	(132.7)	(97.4)%
Investments, at fair value	1,933.1	1,755.6	1,699.8	177.5	10.1%
Invested securities lending collateral	<u>46.1</u>	<u>53.6</u>	<u>73.6</u>	<u>(7.5)</u>	<u>(14.0)%</u>
Total assets	<u>2,007.8</u>	<u>1,969.2</u>	<u>1,805.3</u>	<u>38.6</u>	
Brokers–unsettled trades	17.6	21.5	13.2	(3.9)	(18.1)%
Securities lending payable	46.1	53.6	73.6	(7.5)	(14.0)%
Accounts payable and accrued expenses	<u>3.0</u>	<u>3.7</u>	<u>3.3</u>	<u>(0.7)</u>	<u>(18.9)%</u>
Total liabilities	<u>66.7</u>	<u>78.8</u>	<u>90.1</u>	<u>(12.1)</u>	
Fiduciary net position	<u>\$ 1,941.1</u>	<u>\$ 1,890.4</u>	<u>\$ 1,715.2</u>	<u>\$ 50.7</u>	2.7%

Fiduciary net position increased by \$50.7 million, or 2.7%, at December 31, 2020 from \$1,890.4 million at December 31, 2019. It increased by \$175.2 million, or 10.2%, at December 31, 2019 from \$1,715.2 million at December 31, 2018.

The increase in fiduciary net position at December 31, 2020, primarily was due to favorable market conditions, which increased investments at year end by \$177.5 million. Receivables increased by \$1.3 million at December 31, 2020 compared to prior year because of slight increase in the employer and employee contribution rate starting in January 2020. Also, the brokers-unsettled trades decreased significantly by \$132.7 because of the timing of investment transactions by money managers.

The increase in fiduciary net position at December 31, 2019, primarily was due to favorable market conditions, which increased investments at year end by \$55.8 million. Receivables increased by \$5.2 million at December 31, 2019 compared to prior year because of the timing of deposit of contributions. Also, the brokers-unsettled trades increased significantly by \$122.9 because of the timing of investment transactions by money managers plus we had several redemptions effective December 31, 2019.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)

Changes in Fiduciary Net Position

The following schedule presents a condensed comparison of various changes in the Plan's fiduciary net position:

Changes in Fiduciary Net Position (in millions)

Years Ended December 31, 2020, 2019 and 2018

	<u>2020</u>	<u>2019</u>	<u>2018</u>	<u>2020-2019</u> <u>Change</u>	
				<u>\$</u>	<u>%</u>
Additions					
Member contributions	\$ 87.9	\$ 81.2	\$ 78.3	\$ 6.7	8.3%
Employer contributions	135.9	121.7	117.1	14.2	11.7%
Net investment gain (loss) and investment income	<u>123.6</u>	<u>263.2</u>	<u>(61.3)</u>	<u>(139.6)</u>	(53.0)%
Total additions	<u>347.4</u>	<u>466.1</u>	<u>134.1</u>	<u>(118.7)</u>	
Deductions					
Annuity and disability benefits	288.9	280.7	274.2	8.2	2.9%
Refunds of contributions	5.2	7.1	7.4	(1.9)	(26.8)%
Administrative expenses	<u>2.6</u>	<u>3.1</u>	<u>3.2</u>	<u>(0.5)</u>	(16.1)%
Total deductions	<u>296.7</u>	<u>290.9</u>	<u>284.8</u>	<u>5.8</u>	
Net increase (decrease)	<u>\$ 50.7</u>	<u>\$ 175.2</u>	<u>\$ (150.7)</u>	<u>\$ (124.5)</u>	(71.1)%

Additions to the Plan's fiduciary net position are derived from member contributions, employer contributions and investment income. Total additions were \$347.4 million in 2020, \$466.1 million in 2019, and \$134.1 million in 2018.

Total additions of \$347.4 million in 2020 were lower than the amounts in 2019, primarily due to a net investment gain of \$123.6 million in 2020 compared to a net investment gain of \$263.2 million in 2019. This represents a decrease of \$139.6 million, or 53.0%, in 2020 compared to 2019. In 2020, member contributions increased by \$6.7 million, or 8.3%, and employer contributions increased by \$ 14.2 million, or 11.7%, compared to 2019 due to an increase in labor expense due to an increase in paid time off as a result of the COVID-19 pandemic, also there was an increase in employer and employee contributions beginning January 1, 2020.

Total additions of \$466.1 million in 2019 were higher than the amounts in 2018, primarily due to a net investment gain of \$263.2 million in 2019 compared to a net investment loss of \$61.3 million in 2018. This represents an increase of \$324.5 million, or 529.4%, in 2019 compared to 2018. In 2019, member contributions increased slightly by \$2.9 million, or 3.7%, and employer contributions increased by \$4.6 million, or 3.9%, compared to 2018 due to an extra pay period for some employees who are paid biweekly and a large settlement for trades in 2019.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)

Deductions increased by \$5.8 million in 2020, \$6.1 million in 2019 and \$5.8 million in 2018. The increases in 2020, 2019, and 2018 were mainly due to increases in number of annuity and disability benefits. Administrative expenses decreased slightly by \$0.5 million in 2020, or (16.1)%, mainly due to a decrease in legal and professional services during the year. Administrative expenses decreased slightly by \$0.1 million in 2019, or 3.1%, mainly due to a slight decrease in legal and professional services during the year.

Plan Membership

The following table presents the changes in Plan membership as of December 31, 2020, 2019 and 2018:

	<u>2020</u>	<u>2019</u>	<u>2018</u>	<u>2020-2019</u>	
				<u>Change</u>	<u>%</u>
Retirees and beneficiaries receiving benefits	10,616	10,559	10,482	57	0.5%
Active employees	8,078	8,057	8,159	21	0.3%
Terminated (inactive members) employees entitled to benefits or refunds of contributions	160	151	113	9	6.0%
Total	<u>18,854</u>	<u>18,767</u>	<u>18,754</u>	<u>87</u>	<u>0.5%</u>

Funding Status

The Plan's funding status for pension benefits is as follows:

Funding Status for Pension Benefits At December 31, 2020, 2019 and 2018 (in millions)

	<u>2020</u>	<u>2019</u>	<u>2018</u>
<i>GASB Statement No. 67</i>			
Employer's net pension liability	\$1,832	\$1,766	\$1,847
Plan fiduciary net position as a percentage of the total pension liability	51.44%	51.70%	48.15%
<i>Current funding policy under 40 ILCS 5/22-101(e)</i>			
Unfunded actuarial accrued liability	\$1,715	\$1,700	\$1,653
Funded ratio	53.27%	52.55%	52.62%

Actuarial assumption changes: The Board adopted the recommended changes to the demographic, economic assumptions and optional forms of benefit payment elections at retirement, effective with the January 1, 2020 actuarial valuation. There were no changes to assumptions during the valuation for the year ended December 31, 2018.

The table above presents funding information for pension benefits, reflecting the requirements under GASB Statement No. 67 and the current funding policy under 40 Illinois Compiled Statutes 5 Section 22-101(e).

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)

Effects of Economic Factors

Funding

The Plan's funding objective is to meet long-term benefit obligations by accumulating sufficient assets through contributions and investment income. The Plan is well funded when it has sufficient assets to meet all expected future obligations to participants.

The funded ratio, under 40 ILCS 5/22-101(e), of the Plan was 53.27% at December 31, 2020, 52.55% at December 31, 2019, and 52.62% at December 31, 2018. The slight increase in the funded ratio at December 31, 2020 compared to December 31, 2019, mainly was due to a market value return of 7.8% compared to an 8.25% assumed rate of return, demographic experience, updated participant data, payroll and salary increases that were greater than expected. The slight decrease in the funded ratio at December 31, 2019 compared to December 31, 2018, was mainly due to a market value return of 15.70% compared to an 8.25% assumed rate of return, demographic experience, updated participant data, payroll and salary increases that were greater than expected.

Effective January 1, 2007, the retiree healthcare assets included in the Retirement Plan were marked to the fair market value of the retiree healthcare account and allocated in proportion to the actuarial accrued liabilities. During 2009, the retiree healthcare liability was transferred from the Retirement Plan to the Retiree Health Care Plan.

Public Act 095-0708 changed the structure and funding of the Retirement Plan significantly. The Act requires that the funding and liability for retiree healthcare be removed from the Retirement Plan. The Act also changed the eligibility for retirement benefits for Chicago Transit Authority (CTA) employees hired after January 17, 2008 and created a separate Retiree Healthcare Trust to administer the benefits for retirees. Further, the Act gave the CTA the authority to issue debt in order to fund the Retirement Plan and the Retiree Healthcare Trust, which was created in May 2008.

Changes to the Plan from Public Act 095-0708 effectively removed the liability for retiree healthcare benefits from the Retirement Plan, effective January 1, 2009. There were no Plan assets available for retiree healthcare benefits in the Retirement Plan since December 31, 2009, as the retiree healthcare liability was transferred to the CTA Retiree Health Care Plan in 2009. There were no legislative or administrative changes that affected the Plan's funding during the years ended December 31, 2020, 2019 and 2018.

Investment Activities

The Plan's fiduciary net position held for investment was \$1.94 billion at year-end 2020, an increase of \$50.7 million over 2019, with a total Plan rate of return of 8.0%. Domestic equity investment managers returned a positive 8.8%, while non-U.S. equity investment managers returned a positive 15.4%, and total fixed income returned a positive 7.1% for the year ended December 31, 2020. The Plan's fiduciary net position held for investment was \$1.89 billion at year-end 2019, an increase of \$175.2 million over 2018, with a total Plan rate of return of 16.2%. Domestic equity investment managers returned a positive 28.1%, while non-U.S. equity investment managers returned a positive 21.3%, and total fixed income returned a positive 8.4% for the year ended December 31, 2019. The Plan's fiduciary net position held for investment was \$1.71 billion at year-end 2018, a decrease of \$8.1 million over 2017, with a total Plan rate of return of (3.2%). Domestic equity investment managers returned (8.0%), while non-U.S.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)

equity investment managers returned (14.3)%, and total fixed income returned (0.6)% for the year ended December 31, 2018.

During 2019, a new investment asset allocation was approved by the Board of Trustees as recommended by our Investment Consultants; therefore, the Plan began to move its assets in-line with the newly adopted policy target. Investment asset allocation for 2020 and 2019 was 30% of assets invested in domestic equity, 26% in international equity, 12% in real estate, 7% in infrastructure, 10% in private equity, and 15% in fixed income. During 2020 and 2019, the Plan's investment asset allocation stayed within its target asset allocation ranges.

For the Years Ended December 31, 2020 and 2019

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

Accounting principles generally accepted in the United States of America (U.S. GAAP), as established by the Governmental Accounting Standards Board (GASB), define a financial reporting entity as consisting of the primary government and its component units for which the primary government is financially accountable. Financial accountability includes appointing a voting majority of a component unit's governing board, the ability of the primary government to impose its will on the component unit, or the potential for the component unit to provide specific financial benefits to or to impose specific financial burdens on the primary government. A primary government may also be financially accountable for its component units that are fiscally dependent on it.

Based on the above criteria, the Retirement Plan for Chicago Transit Authority Employees (the Plan) has no component units and is not a component unit of any other entity.

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting. Employee and employer contributions are recognized as additions in the period in which employee services are performed. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan; expenses are recorded when the corresponding liabilities are incurred, regardless of when payment is made.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of fiduciary net position at the date of the financial statements and the actuarial information included in the required supplementary information as of the benefit information date, the changes in fiduciary net position during the reporting period and disclosures of contingent assets and liabilities at the date of the financial statements. Accordingly, actual results may differ from those estimates.

Deposit and Investments

The Plan is authorized to invest in bonds, notes, and other direct obligations of the U.S. Government and U.S. Government agencies; corporate bonds, debentures, and notes; certain notes secured by mortgages (including pass-through securities); common and preferred stocks; and certain real estate funds, private equity funds, hedge funds, and stable value funds.

AUTHORITY EMPLOYEES**

Notes to Financial Statements

For the Years Ended December 31, 2020 and 2019

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Deposit and Investments *(continued)*

The Plan does not have a formal deposit and investment risk policy. Investment risk management is a function of the Plan's asset allocation process. Plan assets are diversified over a broad range of asset classes, utilizing multiple investment strategies to limit concentration risk.

Method Used to Value Investments

To the extent available, investments are recorded at fair value based on quoted market prices in active markets on a trade-date basis. Additional information regarding the fair value measurement of investments is disclosed in Note 6. Because of the inherent uncertainty in the use of estimates, values that are based on estimates may differ from the values that would have been used had a ready market existed for the investments. The net appreciation (depreciation) in the fair value of investments is recognized as a component of investment income.

Deposit and short-term investments are reported at amortized cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Fixed-income securities are valued principally using quoted market prices provided by independent pricing services. For collective investments, the net asset value (NAV) is determined and certified by the investment managers as of the reporting date. Guaranteed investment contracts are carried at contract value, which is principal plus accumulated interest less any withdrawals. The real estate open-end investment funds are reported at NAV of shares held by the Plan at year end based on independent appraisals of the underlying properties. Hedge funds do not have established market prices and are reported at NAV of shares held by the Plan at year end as estimated by money managers. The fair value of investments in certain private equity funds and real estate closed-end funds have been determined using recent observable transaction information for similar investments and non-binding bids received from potential buyers of the investments.

Security Transactions

Purchases and sales of securities are accounted for on the trade dates. For purposes of determining the realized gain or loss on the disposal of investments, the average cost of investments sold is used. Unrealized gains or losses on investments held during the year, as well as realized gains or losses on securities sold, are included in the statements of changes in fiduciary net position in the year in which they occur.

Investment Income

Dividend income is recorded on the ex-dividend date. Income from other investments is recorded when earned.

**RETIREMENT PLAN FOR CHICAGO TRANSIT
AUTHORITY EMPLOYEES**

Notes to Financial Statements

For the Years Ended December 31, 2020 and 2019

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Furniture and Office Equipment

Furniture and office equipment are not capitalized, as they are immaterial and charged to expenses in the year of purchase.

Administrative Expenses

Administrative expenses are recorded as incurred and budgeted and approved by the Plan's Board of Trustees. Administrative expenses are paid from Plan assets and investment earnings. Certain administrative expenses are allocated between the Plan and the Retiree Health Care Plan based on periodic time and expense studies. The Retiree Health Care Plan provides and administers health care benefits to the CTA's retirees and their dependents and survivors.

Securities Lending Transactions

Cash received as collateral on securities lending transactions and investments made with that cash are reported as assets in the statements of fiduciary net position at fair value. Securities received as collateral are reported as assets only if the Plan has the ability to pledge or sell them without a borrower default. Liabilities resulting from these transactions are reported in the statements of fiduciary net position.

Interest on Refunds of Participant Contributions

Interest on refunds of participant contributions is expensed when the refunds are recorded. Interest on accumulated contributions from continuing participants is reflected in each participant's account annually.

Reclassification of 2019 financial statements

Certain prior year amounts have been reclassified for comparative purposes. These reclassifications did not affect the net position restricted for pensions as of December 31, 2019

Recently Issued Accounting Pronouncement

During 2017, the GASB issued Statement No. 87, *Leases* (GASB 87). The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract.

**RETIREMENT PLAN FOR CHICAGO TRANSIT
AUTHORITY EMPLOYEES**

Notes to Financial Statements

For the Years Ended December 31, 2020 and 2019

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Recently Issued Accounting Pronouncement *(continued)*

It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. GASB Statement No. 87 is effective for the Plan's December 31, 2022 financial statements. The Plan is evaluating the impact of this Statement on the financial statements, and it is anticipated that there will be no material impact to the financial results from adopting and implementing GASB Statement No. 87.

NOTE 2 PLAN DESCRIPTION

Plan Administration: The following brief description of the Plan is provided for general information purposes only. Arbitration awards are periodically handed down and negotiated changes occur. Certain aspects of the Plan are now governed by Illinois state statute (40 ILCS 5/22-101). These changes can revise certain provisions of the Plan regarding the CTA, employee contributions, and employee death benefits. Those changes that have affected the Plan are summarized in the notes that follow. Participants should refer to the Plan document, as amended, for complete information.

The Plan is a single-employer, contributory defined-benefit public pension plan, covering all full-time CTA permanent employees. The Plan is administered by an 11-member Board of Trustees composed of members appointed by the CTA, the Amalgamated Transit Union (ATU), the Regional Transportation Authority and a member appointed to represent the employees not represented by the ATU. The Board of Trustees has the authority to establish or amend the contribution and benefit provisions under the Plan. The Plan is classified as a "governmental plan" and is, therefore, exempt from certain provisions of the Employee Retirement Income Security Act of 1974.

The Plan was amended, effective January 31, 2012, to comply with applicable laws. Employees who have completed one year of continuous service are eligible for participation.

**RETIREMENT PLAN FOR CHICAGO TRANSIT
AUTHORITY EMPLOYEES**

Notes to Financial Statements

For the Years Ended December 31, 2020 and 2019

NOTE 2 PLAN DESCRIPTION *(continued)*

Plan Membership: At December 31, 2020 and 2019, pension plan membership consisted of the following:

	<u>2020</u>	<u>2019</u>
Retirees, disabled participants, and beneficiaries of deceased retirees currently receiving benefits	10,616	10,559
Terminated employees entitled to benefits but not yet receiving benefits	160	151
Active	<u>8,078</u>	<u>8,057</u>
	<u>18,854</u>	<u>18,767</u>

Benefits Provided: Employees are entitled to annual pension benefits upon normal retirement at age 65, in an amount generally based on a percentage of their average annual compensation in the highest four of the 10 preceding years, multiplied by the number of years of continuous participating service. For employees retiring before December 1, 1987, the percentage was 1.65%. The agreement between the CTA and its unions, signed in September 1987, raised the percentage to 1.70% and 1.75% for retirements on or after December 1, 1987 and 1989, respectively. The agreement between the CTA and its unions, signed in August 1993, raised the percentage to 1.80% and 1.85% for retirements on or after January 1, 1993 and January 1, 1995, respectively. The Arbitration Award of November 12, 2003, increased the benefit multiplier for service after June 1, 1949 to 2.00% from 1.85% for employees retiring from January 1, 2000 to December 31, 2000, and to 2.15% for employees retiring on and after January 1, 2001. The multiplier for employees retiring before January 1, 2000 remained at 1.85%.

During 1995, a Voluntary Early Retirement Incentive Program was offered, which provided a percentage of 2.05% for employees retiring after January 1, 1994. Employees who met the requirements for early retirement had to respond by February 28, 1995. During 1997, the Plan offered a Voluntary Early Retirement Program to eligible employees who had 25 years of continuous service on or before December 31, 1999, and had not retired prior to January 1, 1997, in the form of a retirement allowance of 2.40% for each year of continuous service, with a maximum retirement allowance of 70% of the employee's annual compensation. All eligible employees who elected to participate were allowed to retire as soon as possible, but no later than December 31, 1999.

The Plan permits early retirement at age 55, generally with reduced benefits. However, in the event of early retirement by an employee who has 25 years or more of continuous service, regardless of their age, benefits will not be reduced. In accordance with Public Act 095-0708, for all employees hired after January 17, 2008, eligibility for an unreduced pension benefit has changed to age 64 with 25 years of service. All retirees receive a monthly pension benefit. Married employees can elect to receive their pension benefits in the form of a joint and survivor option.

**RETIREMENT PLAN FOR CHICAGO TRANSIT
AUTHORITY EMPLOYEES**

Notes to Financial Statements

For the Years Ended December 31, 2020 and 2019

NOTE 2 PLAN DESCRIPTION *(continued)*

Death Benefits: Lump-sum death benefits based on age and years of service, ranging from \$2,000 to \$8,000, are paid to the designated beneficiaries. Also, the excess, if any, of employee contributions plus interest on such contributions over pension benefits previously paid to the retiree, and spouse in the case of a survivorship option, is paid to the designated beneficiary.

Disability Allowance: An employee is eligible for a disability allowance if he or she becomes disabled after completing 10 years of continuous service or, if the disability is covered under the Illinois Workers Compensation Act, after completing five years of continuous service. The disability allowance is based on compensation and service to date of the disability, with a minimum benefit of \$400 per month.

Refund of Contributions: A participant's accumulated contributions plus interest (currently 3% annually) are refunded when the participant is separated from service and has less than 10 years of continuous participation, or when a participant with more than 10 years of service is separated and elects to receive a refund of his or her contributions.

Deferred, Vested Retirement: A participant who is separated from service after completing 10 or more years of continuous service who is not eligible for a retirement or disability allowance at separation, and who elects not to receive a refund of his contributions, is entitled to receive, at normal retirement age, a deferred vested pension based on length of service and compensation to date of the separation.

Contributions and Vesting: Contributions from the CTA and employees are based on a percentage of compensation pursuant to various agreements between the CTA and the unions. For years beginning January 1, 2009 through 2040, the amount of contributions to be paid by the CTA, with respect to debt service on bonds issued for contribution to the Plan, is treated as a credit against the amount of required contribution, up to an amount not to exceed 6% of compensation.

Starting January 1, 2020, covered employees are required to contribute 13.324% of their salary to the Plan and the employer is required to contribute 20.647%, which is net of a credit for debt service on pension obligation bonds.

During 2019, covered employees were required to contribute 12.010% of their salary to the Plan and the employer was required to contribute 24.019% of compensation, less a credit for debt service of 6%, with a total net employer contribution of 18.019%.

**RETIREMENT PLAN FOR CHICAGO TRANSIT
AUTHORITY EMPLOYEES**

Notes to Financial Statements
For the Years Ended December 31, 2020 and 2019

NOTE 2 PLAN DESCRIPTION *(continued)*

In accordance with Public Act 095-0708 (effective January 18, 2008), the CTA issued bonds and notes in the aggregate amount of \$1,348,550,000, of which net proceeds of \$1,110,500,000 were deposited into the Plan during the year ended December 31, 2008. No bond proceeds were received in 2020 and 2019.

Funding Ratio: According to Public Act 095-0708, beginning in 2009 and ending on December 31, 2039, if the funding ratio is projected to decline below 60% in any year before 2040, the Board of Trustees will determine the increased contribution required each year as a level percentage of payroll over the years remaining until 2040, using the projected-unit credit actuarial cost method, so that the funded ratio does not decline below 60%.

NOTE 3 INVESTMENTS

Investment Policy: The pension plan's policy regarding the allocation of invested assets is established and may be amended by the Board of Trustees. The primary objective of the Plan's investment policy is to provide a structured approach in implementing the Plan's investment strategies to achieve above-average returns consistent with prudent risk and investment volatility.

To minimize the impact of large losses and reduce annual variability of returns, the Plan's assets are allocated across major asset classes and diversified broadly within each asset class.

The following was the Board of Trustees' adopted asset allocation policy as of December 31, 2020 and 2019:

<u>Asset Class</u>	<u>Target Allocation</u>	
	<u>2020</u>	<u>2019</u>
Fixed income	15%	15%
Domestic equities	30	30
International equities	26	26
Venture capital and partnerships	10	10
Real estate	12	12
Infrastructure	7	7

There were no changes to the target asset allocation for the year ended December 31, 2020. During 2019, a new investment asset allocation was approved by the Board of Trustees as recommended by the Plan's Investment Consultants.

**RETIREMENT PLAN FOR CHICAGO TRANSIT
AUTHORITY EMPLOYEES**

Notes to Financial Statements

For the Years Ended December 31, 2020 and 2019

NOTE 3 INVESTMENTS *(continued)*

Rate of Return: For the years ended December 31, 2020 and 2019, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 6.94% and 15.6%, respectively. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

NOTE 4 INVESTMENT SUMMARY

The Plan's investments were held by The Northern Trust Company (TNT) as Trustee under a 1996 trust agreement. TNT is also the custodian for the Plan.

The following table summarizes the Plan's investments by type at December 31, 2020 and 2019 (amounts in thousands):

	<u>2020</u>	<u>2019</u>
Asset-backed securities	\$ 11,366	\$ 9,125
Bank loans	38,131	40,535
Commercial mortgage-backed securities	3,997	3,702
Core fixed-income fund	56,228	52,242

Notes to Financial Statements

For the Years Ended December 31, 2020 and 2019

NOTE 5 DEPOSIT AND INVESTMENT RISK

The Plan's deposits and investments are subject to risks, including credit risk, custodial credit risk, concentration of credit risk, interest rate risk and foreign currency risk. The following describes those risks:

Credit Risk: Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations to pay interest or principal in a timely manner, or that a negative perception of the issuer's ability to make payments will cause a decline in the security's price. One measure of credit risk is the quality ratings issued by national credit rating agencies, such as Moody's Investors Service and Standard & Poor's Financial Services (S&P). The Plan does not have a formal policy regarding aggregate credit quality of fixed-income holdings.

The Plan utilizes external investment management firms to invest in fixed-income securities and credit quality is addressed within the guidelines of the mandate to the investment managers. Unless allowed by the mutually agreed-upon guidelines of the mandate, all securities invested in are investment grade. If a holding falls below investment grade, the manager will immediately notify the Trustees in writing of the event and describe the portfolio manager's plans for dealing with the security.

The tables on the following pages provide information on the credit ratings associated with the Plan's investments in debt securities. Ratings were obtained from Standard & Poor's (amounts in thousands).

Notes to Financial Statements

For the Years Ended December 31, 2020 and 2019

NOTE 5 DEPOSIT AND INVESTMENT RISK *(continued)*

Custodial Credit Risk: The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the Plan will not be able to recover its deposits or collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the Plan will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

Deposits consist of a certificate of deposit held in the Plan's name by TNT; such certificate of deposit is insured by the Federal Deposit Insurance Corporation. The deposits balance at December 31, 2020 and 2019 was \$103,278 and \$101,829, respectively.

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the Plan, and are held by either the counterparty or the counterparty's trust department or agent, but not in the Plan's name. The Plan's master custodian holds all investments of the Plan in the Plan's name. As of December 31, 2020 and 2019, deposits of \$228,299 and \$397,187, respectively, were exposed to custodial credit risk as uninsured and uncollateralized. These amounts are included in short-term investments on the statements of fiduciary net position.

Concentration of Credit Risk: Concentration of credit risk is the risk of loss attributed to the magnitude of the Plan's investment in a single issuer. According to the Plan's investment policy, no purchase will be made which would cause the holding of any one issuer to exceed 10% of the investment manager's portfolio value at market. The Plan does not have a formal policy in regards to aggregate concentration of credit risk. The following investments represented 5% or more of the Plan's fiduciary net position at December 31, 2020 and 2019 (amount in thousands):

	<u>2020</u>	<u>2019</u>
Northern Trust Collective S&P 500 Index Fund	\$ 160,043	\$ 138,691

Interest Rate Risk: The risk that the fair value of debt securities will decrease due to increases in the prevailing market interest rate. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The Plan manages its exposure to interest rate risk by purchasing a combination of short- and long-term investments and by timing cash flow from maturity evenly over time, as necessary, to provide cash flow and liquidity needed for operations.

Notes to Financial Statements

For the Years Ended December 31, 2020 and 2019

NOTE 5 DEPOSIT AND INVESTMENT RISK *(continued)*

Foreign Currency Risk: Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. International equity securities purchased by the Plan meet exchange listing requirements; all foreign equities held by the Plan are denominated in U.S. dollars. The Plan has no formal foreign currency risk policy. The Plan's exposure to foreign currency risk is as follows (amounts in thousands):

<u>Investment Type</u>	<u>(US\$) 2020</u>	<u>(US\$) 2019</u>
<i>Short-term investments and currency position</i>		
Australian dollar	\$ 74	\$ 6

Investment Management Fees

Investment management fees from equity and fixed-income managers, including most of the collective funds, are included in the investment management fees on the statements of changes in fiduciary net position. Investment management fees from funds of short-term investments, hedge, real estate, venture capital and private equity are reflected in the net investment income from such investment products. Such investment management fees are not significant to the Plan.

NOTE 6 FAIR VALUE OF INVESTMENTS

GASB Statement No. 72 (GASB 72), *Fair Value Measurements and Application*, clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value, and requires additional disclosures about the use of fair value measurements. GASB 72 established a three-level valuation hierarchy for disclosure of fair value measurements. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liabilities as of the measurement date. The three levels are defined as follows:

**RETIREMENT PLAN FOR CHICAGO TRANSIT
AUTHORITY EMPLOYEES**

Notes to Financial Statements

For the Years Ended December 31, 2020 and 2019

NOTE 6 FAIR VALUE OF INVESTMENTS (continued)

Level 1: Observable market inputs that are unadjusted quoted prices for identical assets or liabilities in active markets that a government can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 – that are observable for the asset or liability, either directly or indirectly.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Plan categorized its fair value measurements within the fair value hierarchy established by U.S. GAAP. The Plan had the following recurring fair value measurements as of December 31, 2020 and 2019 (amounts in thousands):

	12/31/2020	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

NOTE 6 FAIR VALUE OF INVESTMENTS *(continued)*

	<u>December 31,</u>	
	<u>2020</u>	<u>2019</u>
<i>Investments measured at NAV</i>		
Collective investment funds, fixed	\$ 56,228	\$ 52,241
Collective investment funds, global fixed	60,322	56,843
Collective investment funds, U.S. equity	272,226	199,336
Collective investment funds, non-U.S. equity	257,907	181,960
Venture capital - open-end funds	74,526	81,840
Real estate funds - open-end funds	194,709	208,666
Hedge funds	<u>11,206</u>	<u>45,092</u>
Total investments measured at NAV	<u>927,124</u>	<u>825,978</u>
Total investments by fair value level	<u>\$ 1,871,444</u>	<u>\$ 1,728,508</u>
<i>Investments not subject to fair value leveling</i>		
Short-term investments and currency positions	<u>\$ 61,666</u>	<u>\$ 26,997</u>
Total investments not subject to fair value leveling	<u>\$ 61,666</u>	<u>\$ 26,997</u>

Equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities.

Fixed-income securities classified in Level 2 of the fair market hierarchy are valued using either a bid evaluation or a matrix pricing technique maintained by various pricing vendors. Bid evaluations may include market quotations, yields, maturities, call features and ratings. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

Fixed-income investments, equity investments and private equity funds classified in Level 3 of the fair value hierarchy are securities whose stated market price is unobservable by the marketplace. Many of these securities are priced by the issuers of industry groups. These prices are obtained from various pricing sources by the fund's custodian bank.

The valuation method for investments measured at NAV per share (or its equivalent) is presented on the following tables (amounts in thousands):

Collective investment fund, fixed. This fund seeks to capture the performance of a wide spectrum of securities representative of the U.S. investment-grade bond market.

Collective investment funds, global fixed. This type includes investments in two funds: the emerging debt collective trust fund and the global bond plus trust fund.

Emerging market debt collective trust fund. This fund invests in a diversified portfolio of debt securities and other permitted investments. The fair value in this type of investment has been determined using the NAV per unit of the fund and is calculated on each business day by dividing the total value of assets, less liabilities, by the number of units outstanding.

Global plus trust fund. This fund will invest in a portfolio of fixed- and floating-rate debt securities and debt obligations of governments or government-related issuers worldwide as well as derivatives. Units of the fund are issued and redeemed at NAV per unit as determined on the valuation date.

**RETIREMENT PLAN FOR CHICAGO TRANSIT
AUTHORITY EMPLOYEES**

Notes to Financial Statements

For the Years Ended December 31, 2020 and 2019

NOTE 6 FAIR VALUE OF INVESTMENTS *(continued)*

Collective investment funds, U.S. equity. At December 31, 2020 and 2019, this type includes investments that match the return of the S&P 500, S&P 600 and Russell 1000 indexes through investment in substantially all of the stock contained in such indexes.

Collective investment funds, non-U.S. equity. This type of fund includes investments in four funds: two emerging markets funds, emerging markets small-cap fund and non-U.S. large cap core.

Emerging markets funds. These funds invests in equity securities of issuers in emerging markets. The fair value in this type of investment has been determined using the NAV per unit of the fund and is calculated on each business day by dividing the total value of assets, less liabilities, by the number of units outstanding.

Emerging markets small-cap fund. This fund invests primarily in equity securities of small to mid-capitalization companies. The fair value in this type of investment has been determined using the NAV per unit of the fund and is calculated on each business day by dividing the total value of assets, less liabilities, by the number of units outstanding.

Non-U.S. large-cap core. This fund seeks to approximate the risk and return characterized by the MSCI ACWI ex-U.S. Index.

Real estate funds. This type of fund consists of core, value-add, and opportunistic real estate funds. Open-end private funds provide liquidity to investors quarterly, subject to each fund's ability to honor investment and redemption requests. The remaining closed-end private real estate funds include finite-life pooled private market investment vehicles that are typically structured as limited partnerships, where the investors are limited partners (LPs) and the fund sponsor/manager is the general partner (GP). The LPs have limited control and limited liability. The fair value of the investments in these types of funds has been determined using the NAV per share (or its equivalent) of the investments.

Hedge funds. This type of fund consists of equity long/short, event-driven, multi-strategy, distressed debt and hedged equity fund of funds. The fair value of the investments in these types has been determined using the NAV per share (or its equivalent) of the investments.

Private equity. These investments can never be redeemed with the funds. Instead, the nature of the private equity investments is that distributions are received through the liquidation of the underlying assets of the fund. The fair value of investments in certain private equity funds has been determined using recent observable transaction information for similar investments and non-binding bids received from potential buyers of the investments.

AUTHORITY EMPLOYEES**

Notes to Financial Statements

For the Years Ended December 31, 2020 and 2019

NOTE 7 NET PENSION LIABILITY OF THE EMPLOYER (CTA)

The components of the net pension liability of the CTA at December 2020 and 2019 were as follows (amounts in thousands):

	<u>2020</u>	<u>2019</u>
Total pension liability	\$3,773,577	\$ 3,656,305
Plan fiduciary net position	<u>(1,941,166)</u>	<u>(1,890,466)</u>
CTA net pension liability	<u>\$ 1,832,411</u>	<u>\$ 1,765,839</u>
Plan fiduciary net position as a percentage of the total pension liability	51.45%	51.70%

Actuarial assumptions: The total pension liability was determined by an actuarial valuation as of December 31, 2020 and 2019, using the following actuarial assumptions, applied to all periods included in the measurement:

	<u>2020</u>	<u>2019</u>
Inflation	3.10%	3.10%
<i>Salary increases</i>		
Years of service		
1	11%	11%
2	12%	12%
3	16%	16%
4	8%	8%
Equal to or more than 5	3.5%	3.5%
Investment rate of return (net of pension plan investment expense, including inflation)	8.25%	8.25%

For 2020 and 2019, the SOA Public Mortality General Below Median Generational with Improvement Scale MP-2018, with a 13% increase adjustment for females, was used for active members and healthy retirees. The SOA Public Survivor Mortality General Below Median generational with Improvement Scale MP-2018 was used for survivors. The SOA Public Disability Mortality General Below Median generational with Improvement Scale MP-2018 was used for disabled retirees.

The actuarial assumptions used in the December 31, 2020 and 2019 valuation were based on the results of an actuarial experience study, covering Plan years from January 1, 2013 through December 31, 2017.

**RETIREMENT PLAN FOR CHICAGO TRANSIT
AUTHORITY EMPLOYEES**

Notes to Financial Statements

For the Years Ended December 31, 2020 and 2019

NOTE 7 NET PENSION LIABILITY OF THE EMPLOYER (CTA) (continued)

Long-Term Expected Real Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of December 31, 2020 and 2019 are summarized in the following table:

<u>Asset Class</u>	<u>2020</u>	<u>2019</u>
Fixed income	3.60%	1.83%
Domestic equities	7.53	9.04
International equities	6.32	8.45
Venture capital and partnerships	9.23	12.80
Real estate	7.22	4.76
Hedge funds	6.11	4.32
Infrastructure	6.19	6.17

Discount Rate: The discount rate used to measure the total pension liability was 8.25%. The projection of cash flows used to determine the discount rate assumed that Plan members and employer contributions will continue to follow the current funding policy. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate: The following presents the net pension liability of the CTA, calculated using the discount rate of 8.25%, as well as what the CTA's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (7.25%) or 1 percentage point higher (9.25%) than the current rate (amounts in thousands):

<u>Net Pension Liability</u>	<u>1% Decrease (7.25%)</u>	<u>Current Discount Rate (8.25%)</u>	<u>1% Increase (9.25%)</u>
December 31, 2020	\$2,190,523	\$1,832,411	\$1,525,210
December 31, 2019	\$2,112,391	\$1,765,839	\$1,468,250

**RETIREMENT PLAN FOR CHICAGO TRANSIT
AUTHORITY EMPLOYEES**

Notes to Financial Statements

For the Years Ended December 31, 2020 and 2019

NOTE 8 DERIVATIVES

The Plan's investment managers may enter into derivative transactions as permitted by their guidelines for hedging or risk reduction, but not for speculative purposes. A derivative financial instrument's payoff depends on the value of an underlying security, such as bond or stock prices, a market index, or commodity prices. Derivative financial instruments involve credit risk and market risk in varying degrees. The Plan did not invest in derivative instruments during 2020 and 2019.

NOTE 9 SECURITIES LENDING PROGRAM

On July 10, 1996, the Board of Trustees entered into a securities lending agreement with TNT. The Plan participates in TNT's securities lending program by lending certain securities to borrowers, thereby earning additional income, which is included in net investment income on the statements of changes in fiduciary net position. Loans of securities through TNT are collateralized by cash, letters of credit, or securities issued or guaranteed by the U.S. Government or its agencies, equal to at least 102% of the current fair value of the loaned U.S. securities and 105% of the current fair value of the loaned non-U.S. securities. There are risks associated with lending securities, with the most significant being the risk that a borrower may fail to return a portfolio security.

Additionally, the Plan would be exposed to the credit risk of the borrower should the market value of the securities loaned exceed the market value of the collateral pledged. At years ended December 31, 2020 and 2019, the Plan did not have credit risk exposure to borrowers because the amounts the Plan owes the borrowers exceeded the amounts the borrowers owe the Plan.

All securities loans can be terminated on demand by either the Plan or the borrower. At December 31, 2020 and 2019, the average term of the loans was 111 and 116 days, respectively. Cash collateral is invested in the lending agent's short-term investment pool, which at years ended December 31, 2020 and 2019 had an interest sensitivity of 30 and 25 days, respectively. The relationship between the maturities of the investment pool and the Plan's loans is affected by the maturities of the securities loans made by other entities that use the agent's pool, which the Plan cannot determine. The Plan cannot pledge or sell collateral securities received unless the borrower defaults.

**RETIREMENT PLAN FOR CHICAGO TRANSIT
AUTHORITY EMPLOYEES**

Notes to Financial Statements

For the Years Ended December 31, 2020 and 2019

NOTE 9 SECURITIES LENDING PROGRAM *(continued)*

Loans outstanding as of December 31, 2020 and 2019 were as follows (amounts in thousands):

	<u>2020</u>	<u>2019</u>
Fair value of securities loaned for cash collateral	\$ 45,115	\$ 52,317
Total fair value of securities loaned	<u>\$ 45,115</u>	<u>\$ 52,317</u>
Fair value of cash collateral from borrowers	\$ 46,040	\$ 53,594
Total fair value of collateral from borrowers	<u>\$ 46,040</u>	<u>\$ 53,594</u>

NOTE 10 UNFUNDED INVESTMENT COMMITMENTS

The Plan had unfunded commitments of approximately \$126.74 million at December 31, 2020 and \$93.29 million at December 31, 2019 in connection with real estate and private equity investments.

NOTE 11 RISKS AND UNCERTAINTIES

The Plan invests in investment securities that are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term. The changes could materially affect the amounts reported in the statements of fiduciary net position.

Contributions to the Plan and the actuarial information included in the required supplementary information are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee compensation and demographics. Due to the changing nature of these assumptions, it is reasonably possible that changes in these assumptions may occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

The actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Because actuarial calculations reflect a long-term perspective, actuarially determined amounts are subject to continual revision, as results are compared to past expectations and new estimates made about the future. Examples include assumptions about mortality, investment returns, and future employment.

The Plan is subject to various claims and legal proceedings arising in the ordinary course of business which, in management's opinion, will be resolved without any material adverse effect on the Plan's financial position or changes in its financial position.

RETIREMENT PLAN FOR CHICAGO TRANSIT AUTHORITY EMPLOYEES

Notes to Financial Statements

For the Years Ended December 31, 2020 and 2019

NOTE 12 LEGAL PROCEEDINGS

Matthews v. Chicago Transit Authority, et al., No. 11 CH 15446 (Circuit Court of Cook County, Illinois) (n/k/a Williams v. Retirement Plan for Chicago Transit Authority Employees, et al.). On April 26, 2011, Plaintiffs Jerry Matthews, Jerry Williams, Tommy Sams, Cynthia Boyne and Charles Brown, all employees and retirees of the Chicago Transit Authority, filed suit against the CTA and against the Retirement Plan for Chicago Transit Authority Employees, the Board of Trustees of the Retirement Plan for Chicago Transit Authority Employees, the Retiree Health Care Trust, and the Board of Trustees of the Retiree Health Care Trust. The claims were brought on behalf of two purported classes: Class I – CTA employees who retired before January 1, 2007; and Class II CTA employees who were currently employed by the CTA or retired after January 1, 2007.

Generally, Plaintiffs challenged the reduction of health care benefits for retirees in the 2007 Collective Bargaining Agreement (CBA) governing CTA employees, and the related provisions of 40 ILCS 5/22-10 I B, which require retirees to pay up to 45% of the cost of their health care benefits. In their Complaint, Plaintiffs: (i) alleged that all Defendants violated the pension protection clause in Article XIII, Section 5 of the Illinois Constitution by reducing their health care benefits (Counts I and V); (ii) asserted claims for breach of contract against the CTA and Retirement Plan based on the 2007 CBA entered into between the CTA and the unions (Counts II and VI); (iii) alleged claims for promissory estoppel against the CTA and the Retirement Plan, alleging those Defendants promised Plaintiffs they would receive fully paid retiree health benefits (Count III and VII); (iv) alleged that the Retirement Plan Board and the Health Trust Board breached their fiduciary duties (Counts IV and VIII); and (v) sought a declaratory judgment against all Defendants claiming Plaintiffs have a legal interest in enforcing past and present CBAs (Count IX).

The Circuit Court dismissed the case against all Defendants, finding: (i) Plaintiffs who were current CTA employees lacked standing to bring any claims because the unions were the "sole and exclusive" bargaining agents for current CTA employees under the relevant collective bargaining agreements; (ii) Plaintiffs failed to state a claim against the CTA because the CTA had no responsibility for retiree health care benefits; (iii) Plaintiffs failed to state a claim against any of the Defendants because Plaintiffs did not have a vested right in the continuation of free health care coverage; and (iv) Plaintiffs failed to state a claim for breach of fiduciary duty.

Plaintiffs appealed, and the Appellate Court affirmed in part and reversed in part. 2014 IL App (1st) 123348 (April 25, 2014). The Appellate Court upheld the Circuit Court's ruling that the current CTA employees lacked standing to pursue the claims, but found that CTA employees who retired prior to the expiration of the prior 2004 CBA (December 31, 2006), had a vested right to receive the retiree health care benefits that were provided in the prior CBA and had stated a claim for breach of that contract.

**RETIREMENT PLAN FOR CHICAGO TRANSIT
AUTHORITY EMPLOYEES**

Notes to Financial Statements

For the Years Ended December 31, 2020 and 2019

NOTE 12 LEGAL PROCEEDINGS *(continued)*

The Appellate Court also held that the retired CTA employees were entitled to pursue their claims for promissory estoppel against the CTA. The breach of fiduciary duty ruling was not addressed in the appeal.

Defendants appealed to the Illinois Supreme Court. On May 5, 2016, the Illinois Supreme Court affirmed the appellate court in part and reversed in part. 2016 IL 117638. The Supreme Court determined that the Class II Plaintiffs, the current employees bringing claims on behalf of those who retired after January 1, 2007, lacked standing to challenge the 2007 CBA and affirmed the dismissal of their claims. The Supreme Court found that the Class I Plaintiff, Jerry Williams, who retired prior to the expiration of the 2004 CBA, had standing to challenge the modification to health care benefits pursuant to the 2007 CBA. The Supreme Court also found that Jerry Williams sufficiently stated a cause of action against the Plan and Retiree Health Care Trust and the Board of Trustees of the Retiree Health Care Trust Defendants (Trust Defendants) for breach of contract, for declaratory judgment, and for violation of the pension protection clause because the rights in the 2004 CBA were an enforceable, vested right as to those who retired before the expiration of that agreement. Finally, the Supreme Court held that the retired employees were not entitled to pursue their claim of promissory estoppel against the CTA because they sought to enforce an obligation that went beyond the terms of the 2004 CBA. The Supreme Court remanded the case to the Circuit Court for further proceedings.

The case is back in the Circuit Court. On May 31, 2017, Plaintiffs were granted leave to file a First Amended Complaint, which removed named Plaintiffs whose claims were dismissed, removed the Chicago Transit Authority as a defendant, and largely removed dismissed claims. The First Amended Complaint lists Jerry Williams as the first named Plaintiff, and adds two retiree named Plaintiffs, Stewart Cooke and Larry Whitehead. The case is now captioned Williams et al. v. Retirement Plan for Chicago Transit Authority Employees, et al.

The Retirement Plan for Chicago Transit Authority Employees and the Board of Trustees of the Retirement Plan for Chicago Transit Authority Employees (Plan Defendants) filed a motion to dismiss a portion of the First Amended Complaint, specifically the allegations challenging the composition of the Retirement Plan Board, and answered the remaining counts. In response to the Plan Defendants' motion, Plaintiffs moved to voluntarily dismiss their claims and allegations challenging the composition of the Retirement Plan Board and the Retiree Health Care Trust Board from the First Amended Complaint.

The Trust Defendants also filed a motion to dismiss all counts of the First Amended Complaint for failure to state a claim. On November 20, 2017, the Court granted the Health Care Trust Defendants motion to dismiss the breach of contract claim, and gave Plaintiffs leave to replead.

NOTE 12 LEGAL PROCEEDINGS *(continued)*

On December 22, 2017, Plaintiffs filed a Second Amended Complaint. The Health Care Trust Defendants again filed a motion to dismiss the breach of contract claim of the Second Amended Complaint. On July 12, 2018, the Court granted the motion, and again gave Plaintiffs leave to rep lead. On August 3, 2018, Plaintiffs filed their Third Amended Complaint. On September 7, 2018, the Health Care Trust Defendants filed a motion to dismiss the breach of contract claim of the Third Amended Complaint. On April 17, 2019, the Court granted that motion in part and denied the motion in part. Granting the Trust Defendants' motion in part, the Court dismissed Plaintiffs' claim that they were entitled to the same health care plan structure as active employees, including lower co-pays and deductibles. Denying the Trust Defendants' motion in part, the Court held that Plaintiffs (i) had sufficiently alleged that the Retiree Health Care Trust was the successor to the health care obligations in the Retirement Plan Agreement; and (ii) had sufficiently alleged a claim for over-65 Medicare Supplement coverage.

On September 7, 2018, the Plan Defendants filed an Answer and Affirmative Defenses to the Third Amended Complaint, and Counterclaims against the Plaintiffs and the Trust Defendants. On September 28, 2018 and October 4, 2018, respectively, Plaintiffs and the Trust Defendants filed motions to dismiss the Plan Defendants' Counterclaims. On December 4, 2018, the Plan Defendants voluntarily dismissed the counterclaim against the Plaintiffs. On March 27, 2019, the Court granted the Trust Defendants motion to dismiss the Plan Defendants' indemnity and unjust enrichment counterclaims, but granted the Plan leave to replead the indemnity counterclaim. On May 1, 2019, the Plan Defendants filed an amended indemnity counterclaim. On May 13, 2019, the Plan Defendants filed a motion for reconsideration of the Court's order dismissing its unjust enrichment counterclaim against the Trust Defendants. On May 21, 2019, the RHCT filed a motion to dismiss the Plan's amended counterclaim for indemnity.

On June 21, 2019, Plaintiffs filed their second amended motion for class certification. On October 16, 2019, the Court denied the Plan Defendants' motion for reconsideration of the Court's order dismissing its unjust enrichment counterclaim against the Trust Defendants. On November 19, 2019, the Court denied the Trust Defendants' motion to dismiss the Plan Defendants' amended counterclaim for indemnity and denied the Trust Defendants' motion to strike the Plan Defendants' claim for indemnification of attorneys' fees.

The motion was fully brief by the parties and the Court held oral argument on January 27, 2020. On July 7, 2020, the Court granted Plaintiffs' motion for class certification and certified the following class: All CTA retirees who were hired on or before September 5, 2001, retired from the CTA before January 1, 2007, and were eligible for retiree health benefits on July 1, 2009. The class contains 6,369 members. On September 3, 2020, the Plaintiffs filed an unopposed motion for approval of notice to the class.

For the Years Ended December 31, 2020 and 2019

NOTE 12 LEGAL PROCEEDINGS *(continued)*

On September 4, 2020, Defendants filed summary judgment motions. The Plan Defendants filed two motions for summary judgment. The first motion seeks judgment on the ground that Plaintiffs lack standing to bring claims because retirees were represented by the unions. The second motion seeks judgment on the ground that the contract upon which Plaintiffs bring their claims, Section 20.12 of the Retirement Plan Agreement, expired by its terms on December 31, 2003, and was never extended. The Trust Defendants filed a motion for summary judgment on the grounds that the Trust Defendants are not liable as successor to Plan for CTA retiree health benefits and that Section 20.12 does not provide free lifetime health care benefits. The Trust Defendants also filed a motion for summary determination on the grounds that Plaintiffs are not entitled to attorneys' fees and not entitled to prejudgment interest.

On September 10, 2020, the Court held a hearing via Zoom. The Court granted Plaintiffs' unopposed motion for approval of class notice, ordered notice to be mailed by October 15, 2020, and set December 15, 2020 as the deadline for any opt-out forms.

Judge Valderrama, the trial court judge for Chancery Calendar 3 who presided over this case before the appeals and after the remand, was nominated to serve as a judge on the United States District Court for the Northern District of Illinois. Judge Valderrama was confirmed by the U.S. Senate in September 2020. In October 2020, Judge Allen Price Walker was appointed as the new judge for Chancery Calendar 3.

On November 4, 2020, Plaintiffs filed responses to all of Defendants' motions for summary judgment and summary determination.

On June 9, 2021, oral arguments were heard on Defendants' motions for summary judgment and summary determination and on Plaintiffs' motions for summary judgment and summary determination. They took all of the pending motions under advisement and set a ruling date of October 25, 2021. The Judge has not set a trial date but has indicated that he would address trial dates after ruling on the pending motions

add a period after motions.

Notes to Financial Statements

For the Years Ended December 31, 2020 and 2019

NOTE 13 PRIORITIES AT PLAN TERMINATION

While the CTA intends to maintain the Plan permanently, should the Plan terminate, the Plan's fiduciary net position held in trust for pension benefits would be allocated and used generally to provide the following, in the order indicated:

- a. Refunds of participant contributions plus interest, less benefits paid.
- b. Retirement and disability benefits to participants who have retired or reached age 65 on the date of termination.
- c. In the event a balance remains, it will be used to provide for reduced retirement and disability benefits for all other participants.

NOTE 14 TAX STATUS

The IRS issued a letter of determination dated March 8, 2017, stating that the Plan meets the requirements of a governmental plan under Section 414(d) of the Internal Revenue Code (the Code).

The Plan is required to operate in conformity with the Code to maintain this qualification. The Plan's management is not aware of any course of action or series of events that have occurred, which may adversely affect the Plan's tax status.

NOTE 15 OPERATING LEASE

During 2013, the Plan entered into a new lease agreement for office space, which expires on December 31, 2028. Concurrently with the execution of the lease, the Plan has deposited \$100,000 in the form of an irrevocable letter of credit. At December 31, 2020, the remaining future rental lease payments are as follows (amounts in thousands):

<u>Year</u>	<u>Amount</u>
2021	\$ 89
2022	91
2023	93
2024	87
2025	89
Thereafter	<u>277</u>
	<u>\$ 726</u>

Rent and utilities paid by the Plan were \$125,462 in 2020 and \$126,679 in 2019. The amount of rent paid for 2020 and 2019 represents 75% of the total amount paid by the Plan. The other 25% is reimbursed by the CTA Retiree Health Care Plan based on management's expense allocation for the shared office space.

(Unaudited)

Actuarial Methods and Assumptions

The total pension liability as of December 31, 2020 was determined by rolling forward the total pension liability as of January 1, 2020 to December 31, 2020, using the following actuarial methods and assumptions that were applied to all periods included in the measurement.

Valuation date:	January 1, 2020
Actuarial cost method:	Entry Age Normal – Level Percentage of Pay
Amortization method:	For pension expense, the difference between expected and actual liability experience and changes of assumptions are amortized over the average of the expected remaining service lives of all members. The difference between projected and actual earnings is amortized over a closed period of five years.
Inflation rate:	3.10%
Projected salary increases:	11% for 1 year of service, 12% for 2 years of service, 16% for 3 years of service, 8% for 4 years of service, and 3.5% thereafter.
Investment rate of return:	8.25%
Retirement age:	Normal retirement age is 65
Mortality:	Active members and Healthy pensioners – The SOA Public Mortality General Below Median Generational with Improvement Scale MP-2018 with an adjustment for females. Disabled pensioners – The SOA Public Disability Mortality General Below Median Generational with Improvement Scale MP-2018. Survivors – The SOA Public Survivor Mortality General Below Median Generational with Improvement Scale MP-2018.
Experience study:	The actuarial assumptions used were based on the results of an actuarial experience study covering Plan years from January 1, 2013 through December 31, 2017.
